Be part of a transformative day empowering justice-impacted individuals to rebuild their lives through the dignity of work. Hear an inspiring client success story, take part in hands-on activities that will help strengthen interview and communication skills, and connect directly with participants ready to re-enter the workforce.

Enjoy lunch and a thought-provoking panel discussion on the value of hiring justice-impacted talent including an update on related employment laws.

Together, we can open doors, restore confidence, and help create pathways to meaningful employment.
